

# IM Gateway Plugin's Openfire Properties

Below is a list of all of the system properties that the IM Gateway plugin uses. Most of them are set via the Openfire admin console, under Gateways : Settings. There are a few "special" or "advanced" settings here that can only be set manually, however. You can set them by visiting the System Properties screen in your Openfire admin console.

?

Property	Description	Default	Since
plugin.gateway.aim.connectHost	What OSCAR host are we connecting to for AIM?	login.oscar.aol.com	1.0Beta5
plugin.gateway.aim.connectPort	What port on the OSCAR host are we connecting to for AIM?	5190	1.0Beta5
plugin.gateway.aim.crossAccount	Enable communication between AIM and ICQ accounts.	false	1.1.3
plugin.gateway.aim.enabled	Is the AIM transport enabled?	false	1.0Beta1
plugin.gateway.aim.notificationsEnabled	Are notifications enabled?	true	1.1.3
plugin.gateway.aim.reconnect	Enable auto-reconnection on disconnect.	true	1.0.2
plugin.gateway.aim.reconnectAttempts	Number of attempts to attempt auto-reconnect.	3	1.0.2
plugin.gateway.aim.registerDirectly	Whether can register directly: 1: all, 2: some, 3: none	1	1.0Beta6
plugin.gateway.aim.registerRestrictions	Do registration restrictions apply to logins as well?	false	1.1.3

plugin.gateway.aim.subdomain	Subdomain of the AIM transport.? (Advanced)	aim	1.0Beta1
plugin.gateway.gadugadu.host	What Gadu-Gadu host are we connecting to?	appmsg.gadu-gadu.pl	1.1.0
plugin.gateway.gadugadu.port	What Gadu-Gadu port are we connecting to?	80	1.1.0
plugin.gateway.gadugadu.enabled	Is the Gadu-Gadu transport enabled?	false	1.1.0
plugin.gateway.gadugadu.reconnect	Enable auto-reconnection on disconnect.	true	1.1.0
plugin.gateway.gadugadu.reconnect.attempts	Number of times to attempt auto-reconnect.	3	1.1.0
plugin.gateway.gadugadu.subdomain	Subdomain of the Gadu-Gadu transport.? (Advanced)	gadugadu	1.1.0
plugin.gateway.gtalk.host	What Google Talk host are we connecting to?	talk.google.com	1.1.0
plugin.gateway.gtalk.port	What Google Talk port are we connecting to?	5222	1.1.0
plugin.gateway.gtalk.enabled	Is the Google Talk transport enabled?	false	1.1.0
plugin.gateway.gtalk.messages	Are notifications enabled?	true	1.1.3
plugin.gateway.gtalk.reconnect	Enable auto-reconnection on disconnect.	true	1.1.0
plugin.gateway.gtalk.reconnect.attempts	Number of times to attempt auto-reconnect.	3	1.1.0

plugin.gateway.gtalk.registration	What can register directly: 1: all, 2: some, 3: none	1	1.1.0
plugin.gateway.gtalk.registration	Do registration restrictions apply to logins as well?	false	1.1.3
plugin.gateway.gtalk.subdomain	Subdomain of the Google Talk transport.? (Advanced)	gtalk	1.1.0
plugin.gateway.gtalk.usecompression	Enable compression when talking to remote host.	false	1.1.3
plugin.gateway.icq.connection	What OSCAR host are we connecting to for ICQ?	login.oscar.aol.com	1.0Beta5
plugin.gateway.icq.connection	What port on the OSCAR host are we connecting to for ICQ?	5190	1.0Beta5
plugin.gateway.icq.crosscommunication	Enable communication between AIM and ICQ accounts.	false	1.1.3
plugin.gateway.icq.enabled	Is the ICQ transport enabled?	false	1.0Beta1
plugin.gateway.icq.mailnotifications	Are mail notifications enabled?	true	1.1.3
plugin.gateway.icq.reconnect	Enable auto-reconnection on disconnect.	true	1.0.2
plugin.gateway.icq.reconnect	Number of attempts to attempt auto-reconnect.	3	1.0.2
plugin.gateway.icq.registration	What can register directly: 1: all, 2: some, 3: none	1	1.0Beta6

plugin.gateway.icq.registration	Do registration restrictions apply to logins as well?	false	1.1.3
plugin.gateway.icq.encoding	Default encoding for ICQ.	iso-8859-1	1.0Beta6
plugin.gateway.icq.subdomain	Subdomain of the ICQ transport? (Advanced)	icq	1.0Beta1
plugin.gateway.irc.connectionHost	What IRC host are we connecting to?	irc.freenode.net	1.0Beta5
plugin.gateway.irc.connectionPort	What IRC port are we connecting to?	7000	1.0Beta5
plugin.gateway.irc.enabled	Is the IRC transport enabled?	false	1.0Beta1
plugin.gateway.irc.reconnect	Enable auto-reconnection on disconnect.	true	1.0.2
plugin.gateway.irc.reconnectAttempts	Number of times to attempt auto-reconnect.	3	1.0.2
plugin.gateway.irc.registration	Who can register directly: 1: all, 2: some, 3: none	1	1.0Beta6
plugin.gateway.irc.registration	Do registration restrictions apply to logins as well?	false	1.1.3
plugin.gateway.irc.roomList	Whether to permit retrieval of MUC room list	false	1.1.0
plugin.gateway.irc.subdomain	Subdomain of the IRC transport? (Advanced)	irc	1.0Beta1
plugin.gateway.msn.connectionHost	What MSN host are we connecting to?	messenger.hotmail.com	1.0Beta5
plugin.gateway.msn.connectionPort	What MSN port are we connecting to?	1863	1.0Beta5

plugin.gateway.msn.enabled	Is the MSN transport enabled?	false	1.0Beta1
plugin.gateway.msn.notifications.enabled	Are notifications enabled?	true	1.1.3
plugin.gateway.msn.reconnect.enabled	Enable auto-reconnection on disconnect.	true	1.0.2
plugin.gateway.msn.reconnect.attempts	Number of times to attempt auto-reconnect.	3	1.0.2
plugin.gateway.msn.registration	Whether register directly: 1: all, 2: some, 3: none	1	1.0Beta6
plugin.gateway.msn.registration.restrictions	Do registration restrictions apply to logins as well?	false	1.1.3
plugin.gateway.msn.subdomain	Subdomain of the MSN transport.? (Advanced)	msn	1.0Beta1
plugin.gateway.sip.connect.host	What SIP host are we connecting to?	localhost	1.1.0
plugin.gateway.sip.connect.port	What SIP port are we connecting to?	5060	1.1.0
plugin.gateway.sip.enabled	Is the SIP transport enabled?	false	1.1.0
plugin.gateway.sip.reconnect.enabled	Enable auto-reconnection on disconnect.	true	1.1.0
plugin.gateway.sip.reconnect.attempts	Number of times to attempt auto-reconnect.	3	1.1.0
plugin.gateway.sip.registration	Whether register directly: 1: all, 2: some, 3: none	1	1.1.0

plugin.gateway.sip.registration	Do registration restrictions apply to logins as well?	false	1.1.3
plugin.gateway.sip.subdomain	Subdomain of the SIP transport? (Advanced)	sip	1.1.0
plugin.gateway.tweak.no-probes	Prohibits presence probes on transport startup	false	1.1.2
plugin.gateway.tweak.percent	Use % instead of \40 to replace @ in JIDs	false	1.0Beta7
plugin.gateway.tweak.makes-legacy	Makes legacy contacts really be in user rosters	false	1.1.2
plugin.gateway.xmlrpc.password	Password required for XML-RPC (null = disabled)	null	1.1.0
plugin.gateway.xmpp.connect-host	What XMPP host are we connecting to?	jabber.org	1.1.0
plugin.gateway.xmpp.connect-port	What XMPP port are we connecting to?	5222	1.1.0
plugin.gateway.xmpp.enabled	Is the XMPP transport enabled?	false	1.1.0
plugin.gateway.xmpp.override-service	Override the service name used in gateway settings	XMPP	1.1.2
plugin.gateway.xmpp.override-disco	Override the service name returned via disco and in user rosters	XMPP Transport	1.1.2
plugin.gateway.xmpp.reconnect	Enable auto-reconnection on disconnect.	true	1.1.0
plugin.gateway.xmpp.reconnect-attempts	Number of attempts to attempt auto-reconnect.	3	1.1.0

plugin.gateway.xmpp.registration	Restriction register directly: 1: all, 2: some, 3: none	1	1.1.0
plugin.gateway.xmpp.registration	Do registration restrictions apply to logins as well?	false	1.1.3
plugin.gateway.xmpp.subdomain	Subdomain of the XMPP transport.? (Advanced)	xmpp	1.1.0
plugin.gateway.xmpp.useSecureSession	Enable session when talking to remote host.	false	1.1.3
plugin.gateway.yahoo.domainHost	What host are we connecting to?	scs.msg.yahoo.com	1.0Beta5
plugin.gateway.yahoo.domainPort	What port are we connecting to?	5050	1.0Beta5
plugin.gateway.yahoo.enabled	Yahoo transport enabled?	false	1.0Beta1
plugin.gateway.yahoo.receiveNotifications	Receive notifications enabled?	true	1.1.2
plugin.gateway.yahoo.reconnect	Enable auto-reconnection on disconnect.	true	1.0.2
plugin.gateway.yahoo.reconnectAttempts	Number of attempts to attempt auto-reconnect.	3	1.0.2
plugin.gateway.yahoo.registration	Restriction register directly: 1: all, 2: some, 3: none	1	1.0Beta6
plugin.gateway.yahoo.registration	Do registration restrictions apply to logins as well?	false	1.1.3
plugin.gateway.yahoo.subdomain	Subdomain of the Yahoo transport.? (Advanced)	yahoo	1.0Beta1
